

Gregory Anthony Midyett

October 3, 1964 - August 28, 2021

Gregory Anthony Midyett grew up in Marin. Before he could drive cars, he was learning the ins and outs of heavy equipment. After high school he landed a job with the County of Marin maintaining roads. While he worked for the County, he started a family with his high school sweetheart. They had two sons, Anthony Midyett and Alexander Midyett, who were two of the most precious people in his life. Alexander gave Gregory 2 beautiful grand daughters, Amailah and Annalise whom he doted over at every opportunity. Later in his career, he was assistant superintendent for a well known developer who was developing property in Cotati when he met his wife, Laura Benson, in 2003 and when they moved in together, she still had 3 kids at home; Danny, Ashley and Stephen. He jumped right into being the best step dad he knew how to be.

In 2016, Gregory's life long dream of being a business owner finally became a reality. He ran his landscape construction business with honesty and integrity and treated his employees and clients like family.

Gregory was a very loving and kind man who enjoyed surrounding himself with like-minded people. He was a hard worker (with everything he did) and recognized that trait when it presented itself in others.
